

REHEATING INSTRUCTIONS

REHEATING & SERVING INSTRUCTIONS

Our dishes are prepared to be easily reheated in the oven, on the stove top, or in a microwave. Oven times may vary based on oven type, accuracy of temperature, and amount of food being reheated. When using the microwave, remember that it requires quite a bit of attention.

PRELIMINARY INSTRUCTIONS	STIR FREQUENTLY	Go ahead & set that timer for 4 to 5 minutes, but every sixty seconds you should be opening the door, carefully removing the lid or covering, and stirring. Microwaves heat quickly but unevenly - without stirring frequently you'll have cold spots as well as overcooked areas.
	BE CAREFUL!	The microwave heats things FAST, including the container. Be extra careful when handling foods being reheated in a microwave
