

MEMORIAL DAY

REHEATING & SERVING INSTRUCTIONS

Our dishes are prepared to be easily reheated in the oven, on the stove top, or in a microwave. Oven times may vary based on oven type, accuracy of temperature, and amount of food being reheated. When using the microwave, remember that it requires quite a bit of attention.

PRELIMINARY INSTRUCTIONS	STIR FREQUENTLY	Set the timer, but make sure you are stirring frequently. Microwaves heat quickly but unevenly - without stirring frequently you'll have cold spots as well as overcooked areas.
	BE CAREFUL!	The microwave heats things FAST, including the container. Be extra careful when handling foods being reheated in a microwave.
	AVOID A MESS	Cover soups and gravies - we recommend covering them loosely while reheating. They quickly begin to spatter and can burn you quite easily. Use a microwave cover - parchment paper or a folded paper towel will do the job.
