

# GAME DAY

## REHEATING & SERVING INSTRUCTIONS

Our dishes are prepared to be easily reheated in the oven, on the stove top, or in a microwave. Oven times may vary based on oven type, accuracy of temperature, and amount of food being reheated. When using the microwave, remember that it requires quite a bit of attention.

<b>PRELIMINARY INSTRUCTIONS</b>	<b>STIR FREQUENTLY</b>	Set the timer, but make sure you are stirring frequently. Microwaves heat quickly but unevenly - without stirring frequently you'll have cold spots as well as overcooked areas.
	<b>BE CAREFUL!</b>	The microwave heats things FAST, including the container. Be extra careful when handling foods being reheated in a microwave.
	<b>AVOID A MESS</b>	Cover soups and gravies - we recommend covering them loosely while reheating. They quickly begin to spatter and can burn you quite easily. Use a microwave cover - parchment paper or a folded paper towel will do the job.
